Requirements for the design of materials

When preparing materials for submission to the editorial office, please follow the following rules:

1. Send electronic versions of the materials to the e-mail address (e-mail: pochvoved@ukr.net).

2. Requirements for material design:

✓ the volume of the article should be at least 2-4 (up to 6-8) pages in accordance with the requirements. The volume of illustrations and tables should not exceed 30% of the volume of materials;

✓ all textual materials are single-spaced, all margins are 2.0 cm (20x20x20x20 mm), font is Times New Roman 14-point, paragraph indentation is 1.25 cm. When typing an article, you need to distinguish between hyphens (a-a) and dash (a – a), use only typographic quotation marks ("herringbone"). Leave a space between the initials and the last name (V. V. Dokuchayev);

✓ textual materials are prepared in MS Word 2003-2019 as RTF text (*.rtf) or a Word document (stat_first author's name in Latin.doc; stst_Ivanov.docx, zayavka_Ivanov.docx);

✓ mathematical, chemical formulas, illustrations, graphs and tables in the submitted materials should be subject to editing;

✓ use the units of the International System of Measurement;

✓ structure of abstracts (no formatting: no italics, no bold):

- UDC index in the upper left corner of the page;

- initials and surnames of all authors;

- Name of the organization where the research was conducted (for each author);

- e-mail (contact person, author);

- title of the materials (should briefly inform about its content and contain no more than 13 words);

- the main text should contain the following sections: introduction, objects and methods of research, results and discussion, conclusions; list of references.

Tables should be numbered and titled in accordance with the content of the article. Statistical and other details are provided below the table. Prepare tabular materials in Word 2003-2019.

Figures are numbered and labeled in the order of their discussion in the text below the figure. Figures for the article should have a separate copy in electronic form. Diagrams and graphs should be created in Excel, Statistica, and diagrams in Visio and saved in the formats of these programs as separate files (for example, petrov_ris1). The best file formats for scanned images are TIFF. JPEG. EMF. All text elements in images (graphs, charts, diagrams) should be in Times New Roman or Times New Roman Cyr font (editable), if possible. When printed, the image after scanning should be clear, at least as clear as the main text. Acknowledgments, if necessary, are given at the end of the article before the list of references.

References should be given in [7]. In the list of references, each source should be given in the original language (DSTU 7.1:2006; DSTU 8302-2015).

Information about the authors is provided separately (zayavka_Dokuchaev.doc).
