### **Certificate of Participation**

This certificate confirms the successful participation of

**Vladyslava Lahosha**

in the Project, “Capacity Building for Ukraine: Biotech Summer School” within the program “Ukraine Digital: Ensuring academic success in the times of crisis (SS2023)”, provided by the German Academic Exchange Service (DAAD).

The project offered academic training and education at the Rhein-Waal University of Applied Sciences and contained both online meetings and training onsite at the campus of the Rhein-Waal University in Kleve, Germany from 10.July until 22.July 2023 , including participation in the following labs:

Applied Microbiology, Enzyme Engineering, Bioprocess Engineering, Genetics and Molecular Biology

The program consisted of a combination of online lectures and on-site training at the campus of the Rhein-Waal University in Kleve, Germany, spanning from 10<sup>th</sup> July to 22<sup>nd</sup> July 2023. The total duration of the program was 180 hours (equivalent to 6 Credits, ETCS), with 80 hours dedicated to hands-on lab sessions and 100 hours for online learning activities as well as the participation on a video presentation from the lab results.

With best regards,

Prof. Dr. Joachim Fensterle
