Memorandum for intentions

on scientific cooperation between the Department of Agrochemistry, Faculty of Agronomy and Plant Protection of the State Biotechnological University, Kharkiv and the Agronomic Faculty of the Forestry University, Sofia

The Department of Agrochemistry, Faculty of Agronomy and Plant Protection, State Biotechnology University, Kharkiv, Ukraine on the one hand and the Faculty of Agriculture of the University of forestry, Sofia, Bulgaria aim to create new opportunities for their own Academic staff and students of both Universities for more closer cooperation in fields of science and education. Both parts signed this Memorandum for intentions for the period 2023-2028 and agreed for:

1. Exchange of information on the scientific fields of investigations of the Departments of both faculties
2. Conducting joint conferences, webinars, and other public events.
3. Exchange of innovative scientific approaches and methods.
4. Joint elaboration of scientific projects and writing of scientific articles

This memorandum of intentions is not related with any payments and obligations of both parts.
